Curtiss-Wright Product Announcement

SmartPlatform NX4 Software Release

December 2024

Curtiss-Wright is pleased to announce the release of SmartPlatform NX4, the comprehensive condition monitoring system that includes the following applications:

- StressWave acoustic emissions analysis
- PdP pattern recognition and alerting

Both of the two product suites can be used independently or in combination.

SmartPlatform NX4 provides a unified, mobile-friendly user interface with the following features:

- Customizable dashboards, including sensor lists, events/notes, and any chart elements
- Data export: easily save PNG images or generate Excel spreadsheets directly from charts
- Full language support for English, German, Spanish, Italian, Korean, or Chinese (new languages can be added by request)

As we move ahead in making this software the industry benchmark for condition monitoring technology, we encourage you to provide feedback to drive enhancements and innovations. We look forward to working with you in the implementation of this upgrade and in demonstrating the value of SmartPlatform technology.

To upgrade to the latest version or to receive more information, contact Josh Bartlett. Also visit our website at www.cw-connect.com.
